

# Sprint - 0

## Project Initiation

- Rough discussion of Functional & Non-Functional Requirements (FR & NFR).
- Created a chart paper with FR, NFR, and stakeholders (initial draft).

# Sprint - 1

## Requirements and Analysis Setup

- Identified final stakeholders.
- Used elicitation techniques (interviews, brainstorming, surveys).
- Finalized FRs & NFRs.
- Wrote user stories, epics, and conflicts.
- Backend: Database & schema design, validation, login/signup controllers, middlewares, authentication.
- Basic login & signup page → (B1.1, B1.2, S1, S2)
